## Company History

*Our shop opened for business in Warminster, PA in 1989. Originally named Custom Signs Today, this business was once part of a franchise. A few years later the name was changed to Hightech Signs and the dissolution of the franchise followed soon after. In 1997, Jim and Chris Convey purchased Hightech Signs from the original owners, and in 2002 we expanded our network with the purchase of Eagle Signs of Conshohocken, PA. In 2006, Hightech Signs announced that it would change its name for the last time and would now be known as Treasure Sign. Treasure Sign also relocated to a building four times the size of our original in Willow Grove, PA.*

## Services

*Treasure Sign strives to be the one place that you can rely on to manage all of your advertising and marketing desires. We can design, manufacture, and install any type of sign that you can possibly imagine or any creation we can dream of. There is no type of sign in the industry that we cannot produce for you. But, we also want to assist you in marketing your company the way that it deserves to be represented. In addition to sign advertising, we can also develop your corporate identity, produce your entire print medium, design a custom website for your company, provide you with clothing apparel that showcases your business, and process the manufacturing of your promotional giveaway items.*

## Site Signs

We characterize our site signs as any sign that is manufactured and then installed at your site. These can be signs that are planted in the ground or signs that are mounted on your building's façade.

- ✂ Freestanding
- ✂ Building

## Dimensional Letters

*Dimensional letters are letters that are individually cut out of material and installed directly to your building. Dimensional letters do not need a background to create the sign, they use the beauty of your building as their background art.*

## Electronic Displays

*No signs that we produce cost more money, but no signs that we produce bring in more customers. Electronic displays offer the capabilities to customize your message for every second of every day. With electronic displays, you control how and when to target your customer.*

## Channel Letters

*Channel letters combine the look of dimension with the effectiveness of illumination.*

## Informational

Informational signs are used to communicate a message to your guest. Once a company has lured a client or potential customer onto its property or in its building, it is up to informational signs to direct this person what to do. These signs sell your company for you.

## Banners

Simply put, we have made more banners in our company's history than any other type of sign. Banners are good for any occasion, from corporate meetings to camps to personal parties.

With banners, any message can be made fun and BIG.

## Wayfinding

*Wayfinding signs tell people where to go. Wayfinding systems can be as intricate as an identification system complete with a directory and suite signs for an entire office building or as simple as a stop sign in the company's parking lot.*

## Plaques

*Plaques are the most sophisticated signs that we manufacture. Metal plaques are great ways to recognize an individual or achievement, dedicate a building, or remember someone.*
